

Un Mensaje a la Conciencia

Android App

Project Description

- To create an Android app that looks and functions identically to the iOS app that “El Mensaje a la Consciencia” currently owns.
- To allow all available sermons to be either downloaded or streamed to viewers who have downloaded the Android app.

Personal Goals

- Have a fully functional app completed weeks before deadline
- Learn how to program a project in a consultant-type atmosphere where I am producing a product for a client.
- Learn proficiency with Android app development.
